

POULTEC

The Poultry Technology

NEW PRODUCT

POULTEC, a company of a strong and long experience in poultry equipments especially in innovative and automatic poultry feeding systems, introduce a new broiler feeding pan :

The new model represent an evolution of feeding pan, allowing the birds to easily reach the feed even during the first days, thus achieving better results.

The innovative design of the pan characterize all the feeding pans from **POULTEC** series as extremely robust , easy to use and a cut of labour.

The absence of the grill in the new model of the broiler pan permits the birds to easily reach the feed and, at the same time, it avoids the broilers from entering in the feeding pan during all the rearing cycle.
